I am an Information Security Enthusiast with 4 years of experience in cybersecurity and VAPT. I have been acknowledged and recognized by Universities like Utwente and Avans, Government Agencies like Dutch **NL**, Govt of **NZ**, CERT **EU**, CERT **LV**, Australia Post, NCIIPC and more than **70+** Organizations **worldwide** including **Microsoft**, **IOTA**, **Sony**, **Apple**, **Zomato**, **NCSC NL, Intel** for discovering their security vulnerabilities. Even helping out with the smallest thing can make a real difference to the organizations.

Work History

2021-01 - 2021-05

Information Security Researcher - CDAC

Internship, Hyderabad, India
Project "Design & Development of Investigation Framework for Dark Web"
My role was to Classify data on dark-web and find out security vulnerabilities. Goal of assessment is to identify various vulnerabilities across dark web websites. As working on a framework that will identify, classify content, and wanted to do some forensics works to help out **Legal Enforcement Agencies (LEA India)**. One single vulnerability is all attacker needs to get one step ahead in game.
